

Figure 8 Physiological map of the oligodendrocyte differentiation integrating curated literature knowledge represented using the Systems Biology Graphical Notation. The map is annotated with the literature source (PubMed IDs) and ontological identifiers for each entity. Outcomes from our in vitro test battery are highlighted in orange nodes and edges. The map can be accessed and interactively explored at the MINERVA platform: https://ontox.elixir-luxembourg.org/minerva/index.xhtml?id=ONTOX_oligodendrocyte_development.
